As a prospective planner or faculty member, we would like to ask for your help in protecting our learning environment from industry influence. Please complete the form below and return it as soon as possible before the CME activity to the Office of Continuing Medical Education.

The ACCME Standards for Integrity and Independence require that we disqualify individuals who refuse to provide this information from involvement in the planning and implementation of accredited continuing education. The Standards also exclude the participation of speakers who are owners or employees of ineligible companies. This includes biomedical start-ups that have begun the governmental regulatory approval process, e.g., submitted Investigational New Drug Application (IND) for FDA approval prior to initiating clinical trials. Thank you for your diligence and assistance. If you have questions, please contact the Office of Continuing Medical Education, (631) 444-2094, som\_cmeoffice@stonybrookmedicine.edu.

**To be Completed by Planner, Faculty, or Others Who May Control Educational Content**

Please disclose **all financial relationships** that you have had in the **past 24 months** with ineligible companies (see definition below). For each financial relationship, enter the name of the ineligible company and the nature of the financial relationship(s). There is no minimum financial threshold; we ask that you disclose all financial relationships, regardless of the amount, with ineligible companies. You should disclose all financial relationships regardless of the potential relevance of each relationship to the education.

**Enter the Name of Ineligible Company**

An ineligible company is any entity whose primary business is producing, marketing, selling, re-selling, or distributing health-care products used by or on patients.

For specific examples of ineligible companies visit [accme.org/standards](http://accme.org/standards).

**Enter the Nature of Financial Relationship**

Examples of financial relationships include employee, researcher, consultant, advisor, speaker, independent contractor (including contracted research), royalties, or patent beneficiary, executive role, and ownership interest. Individual stocks and stock options should be disclosed; diversified mutual funds do not need to be disclosed. Research funding from ineligible companies should be disclosed by the principal or named investigator even if that individual's institution receives the research grant and manages the funds.

**Has the Relationship Ended?**

If the financial relationship existed during the last 24 months, but has now ended, please check the box in this column. This will help the education staff determine if any mitigation steps need to be taken.
